

Open Workshop
Digital storytelling & Cultural Heritage for cultural mediation, Education & Tourism

Barcelona, 3rd of July 2015; 9:00 – 12:00

Language: English

Venue: Palau Moja building
 Carrer de la Portaferissa, 1
 Barcelona

This workshop is organised in the framework of the Athena Plus project.

Description

In October 2013 we organized a first workshop on Digital storytelling, focusing on its role for mediation and valorisation of cultural heritage. The Barcelona workshop is the occasion to deepen the exploration on the roles of digital storytelling.

New technologies are a major opportunity for cultural heritage to pass from digitization and aggregation of content to the editorialisation of this content, and thus for cultural institutions to make their content more attractive for the public, providing new experiences and ways for engaging with new audiences.

Digital storytelling offers also great opportunities for innovation, participation, inclusion, new economical models in the fields of Education, Cultural mediation and Tourism

This workshop focuses on those specific roles of DCH, in perspective with European strategy, thanks to European projects, creative tools developed under Athena Plus and a debate on European perspectives.
